CONDITIONS OF SALE – FREIGHT INFORMATION

CANCELLATIONS:
Order cannot be cancelled after order is placed in production or if special order material is received. The order will be shipped upon completion.

RETURNS – CREDITS – ALLOWANCES:
Merchandise may not be returned without a return authorization (RA#). No credits or allowances will be given for repairs etc. without our written approval.

LOST OR DAMAGED MERCHANDISE:
Our furniture is packed in accordance with specifications established for furniture moving in interstate commerce. All merchandise is shipped F.O.B. factory – our responsibility ceases when goods are received "in good order" by the transportation company, and all claims for freight overcharge, loss in transit must be handled by the carrier.

The bill of lading is an acknowledgement by the transportation company of receipt in good condition of the shipment covered by our invoice. If any of the goods called for on the bill are short or damaged, do not accept them until the freight agent makes a damaged and/or shortage notation on your freight bill. Claims for damage must be filed within ten days of delivery. Be sure the furniture is unpacked, inspected, all carton and or/wrapping saved within this time to have a valid claim.

If your shipment consists of more than one carton and the carrier fails to deliver all items, have the agent make a shortage notation on your freight bill before signing it or paying freight. If any concealed loss or damage is discovered as the shipment is inspected, notify your local agent at once and ask him to make an inspection. (Friction rubs, cracked bases, broken leg/arm, bent control mechanisms are examples of concealed damage.)

Filing Claims – **you must file the claim directly with the carrier within 10 working days from receipt of the furniture** – the manufacturer is not responsible for filing claims – we will assist you if needed. To file a claim you need a copy of your invoice, bill of lading, and freight bill received copy. **DO NOT DESTROY YOUR CARTONS.**

FREIGHT CLASSIFICATIONS:

Sofas, loveseats, recliners, chairs, and sleepers	Class #175
Small chairs	Class #150
Ottomans	Class # 85

PREPAID SHIPMENTS/DROP SHIP DELIVERIES:
To defray the additional cost involved in processing prepay and add shipments, a service charge of $80.00 per order is applied. This is in addition to any and all applicable freight charges. The carrier will add a Drop Shipment/Home Delivery/non dock charge to your freight bill. A residence or business phone must appear on all orders to enable the carrier to contact the consignee to ascertain delivery, otherwise the shipment could be subject to storage charges or return freight charges if not deliverable.

DIMENSIONS – MANUFACTURING SPECIFICATIONS:
All dimensions indicated in our catalog are to the nearest inch. This, plus varying thickness of the covering material and the individual technique of each craftsman, account for a variation in dimensions from 1-2″. Also keep in mind that our product is hand made and minor variations do occur. If specific dimensions must be met, notation of this must be made on purchase order. Manufacturer reserves the right to change specifications without notification to customers if it is necessary because of availability of raw materials, change in design, or change necessary to meet quality standards.

PRIORITY SHIPPING
10% upcharge for priority shipping. Call customer service for availability of materials for quotation of delivery date that closely accommodates your needs. If we fail to meet the acknowledged shipping date we will refund the upcharge. Refund will not apply if carrier fails to meet your required date.

CONSTRUCTION SPECIFICATIONS

FRAMES:
Solidly built 5/4 (1-1/8″) kiln-dried hardwood and engineered hardwoods. All frame joints are double doweled or mortise and tenoned, corner blocked, glued and screwed for extra strength, and durability. All items with exposed stretchers are doweled, glued and screwed.

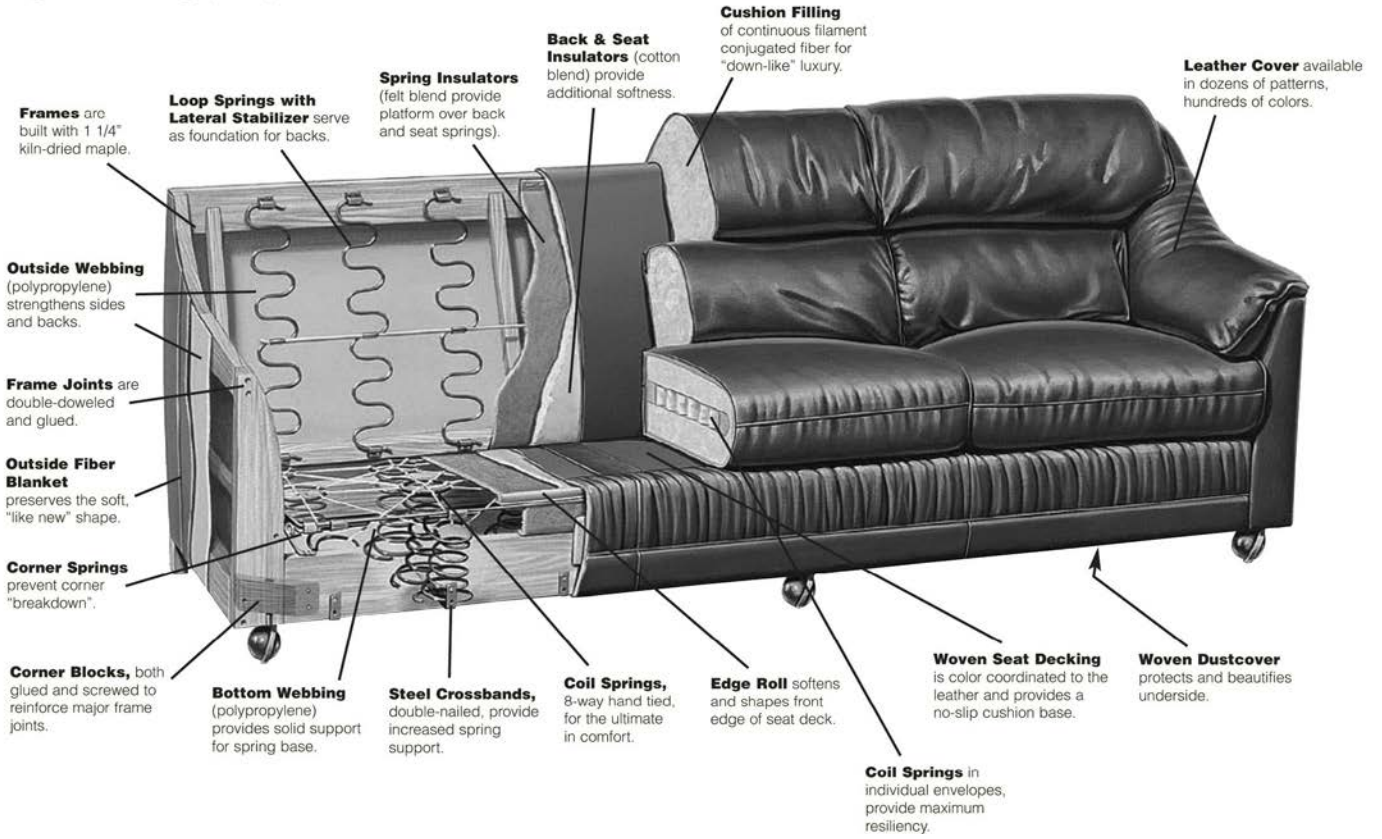
FINISH:
Leathercraft uses a 12-step finish process on our exposed maple. Note the depth and clarity which is indicative of quality finishes. Three coats of lacquer are then applied.

SPRINGS:
Tempered high-carbon double cone coil springs are matched to each style to provide the best possible seating. These coil springs are eight-way tied and secured to polypropylene sheeting which is reinforced with steel bands. These steel bands run from rail to back rail and from side to side. You get added resilience, greater comfort and noise free performance. Where the design of the items does not permit the use of eight-way hand tied coil springs, the finest Pirelli (Standard) Resilient Rubber Webbing or sinuous springs are used. This rubber webbing is laced from front rail to back rail, from side rail to side rail and securely attached to each for a deep comfortable seating platform.

PADDING:
All platforms are padded with a layer of insulated deck cover, followed by a blanket of cotton for comfort and durability. Backs and arms are covered with cotton felt and urethane foam to provide a firm smooth padding under the leather, vinyl or COM covering. Back construction varies as dictated by styling.

INTERIOR CONSTRUCTION

The seating system you see here is our popular H3420 Sofa. All our seating features most of the elements you see in this sofa. But we offer hundreds of styles, and some of them utilize different elements for utilitarian or design reasons. If you desire exact specifications on a particular item contact your customer service representative at 1.800.627.1561. Whatever style you choose, you can be certain that our designers base their decisions on 3 imperatives: comfort, design and lasting quality.



CUSHIONS

Comfort is ultimately defined by personal preference. That's why we offer so many seat cushion options. Most of our seating styles are standard with either Spring Poly or Feather and Fiber seat cushions. Please review the following illustrations for construction specifications for our cushions.

- Crisp, tailored look
- Maintenance Free - No fluffing required
- Comfortable yet supportive and a bit firm
- Overall look of the sofa cushion is tailored and sleek with no wrinkles in the cover fabric
- Standard Crown, not overly plush looking
- Durable and long lasting
- Very supportive when sitting for long periods of time

- Less Firm than Poly Fiber
- The durability of springs with the soft finish of Poly Fiber
- Maintenance Free - No fluffing required
- A bit more crown than standard
- A few fabric wrinkles can be seen on the cushion cover
- Durable and long lasting
- Supportive yet comfortable

- Less Firm than Poly Fiber or Spring Poly cushions
- More crown
- More fabric wrinkles can be seen on the cushions
- The support of springs and the softness of Down make a wonderful, luxurious combination
- Perfect for sitting in over long periods of time
- Durable and long lasting
- Requires a bit of fluffing on occasion to re-settle the down

- Soft, sumptuous look and feel
- Lofty Crown that compacts with use
- Must be fluffed frequently to regain loft and crown on the cushions
- Fabric wrinkles on the cushion are to be expected and appreciated
- A sense of sitting IN not On the sofa
- For the person who likes to curl up more than to sit on the sofa

CUSHIONS

CUSHION DESCRIPTIONS:

PF Poly Fiber: High density foam core double wrapped in polyester fiber and covered with sewn casing. Used in loose seat construction. - 2.4 Density

SP Spring Poly: Coil springs encased in foam, foam wrapped in a sewn casing. Used in loose seat construction – not backs.

FF Feather and Fiber seat cushions: Contains a core of 2.4 density 19 lb polyurethane foam wrapped in blankets of feather and fiber (50% polyester fiber - 50% feather consisting of 90% goose feathers and 10% down.) Where this seat is not standard and such is desired, call for availability. Feather and fiber back cushions: mixture of fiber and feathers channeled in down proof ticking. Where this back is not standard and such is desired, call for availability.

SD Spring Poly Down cushions: Consisting of 2.4 density foam, individually wrapped coil springs, down, feather and fiber channeled top and down proof ticking.

POP Poly On Poly cushions: High density inner foam core wrapped in a softer foam cap. Foam has more longevity than fiber wrapped cushions. Covered in a sewn casing.

PREMIUM FIBER: Our premium fiber loose back cushions are constructed using 7 Denier conjugated fiber. This fiber has surpurb resiliency for long lasting comfort.

* Tight or tufted seat construction consists of high density foam covered in polyester fiber.

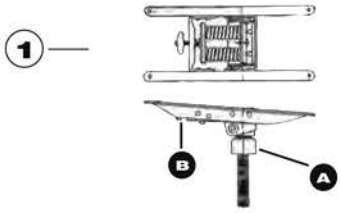
ADJUSTABLE MECHANISM FEATURES

THE FOLLOWING ADJUSTABLE MECHANISMS ARE AVAILABLE ON SELECTED MODELS.
PLEASE REVIEW EACH ILLUSTRATION BELOW FOR ADJUSTMENT FEATURES:

1) 475 FIXED BACK TILT SWIVEL

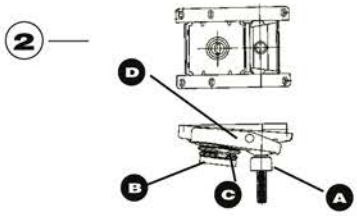
A SEAT HEIGHT–TURN HANDWHEEL CLOCKWISE TO RAISE SEAT.
B TILT TENSION REGULATOR–TURN HANDWHEEL CLOCKWISE TO INCREASE TENSION.



2) 483 FIXED BACK TILT SWIVEL

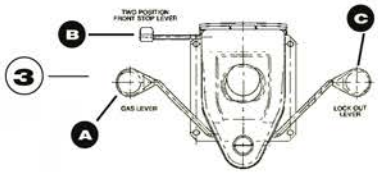
A SEAT HEIGHT–TURN HANDWHEEL CLOCKWISE TO RAISE SEAT.
B TILT TENSION REGULATOR–TURN HANDWHEEL CLOCKWISE TO INCREASE TENSION.

OPTIONAL PNEUMATIC FEATURE:
C TOP PRESSURE CYLINDER ACTUATOR (ELIMINATES HANDWHEEL) PULL HANDLE UP–ADJUST SEAT TO DESIRED HEIGHT–RELEASE HANDLE.
D TILT LOCK–PUSH LEVER BACK TO SECURE IN AN UPRIGHT POSITION.



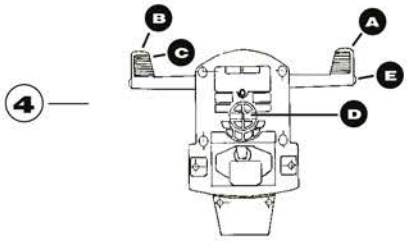
3) 4900 PNEUMATIC KNEE-TILT

A SEAT HEIGHT–PULL GAS LEVER UP–ADJUST SEAT TO DESIRED HEIGHT–RELEASE HANDLE.
B FRONT STOP LEVER–TILT BACK–TURN LEVER TO ACHIEVE 0° OR 5° FORWARD PITCH.
C LOCK OUT LEVER–PUSH LOCK OUT LEVER DOWN TO SECURE IN AN UPRIGHT POSITION.



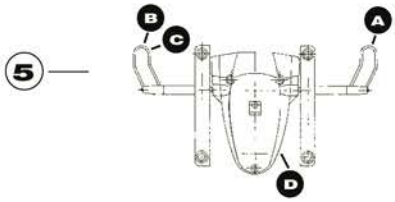
4) 1060 PNEUMATIC VARIO SYNCRON POSTURE BACK

A SEAT HEIGHT–PULL GAS LEVER UP–ADJUST SEAT TO DESIRED HEIGHT–RELEASE HANDLE.
B SYNCHRONIZED FREE FLOATING MOVEMENT–UNLOCK BY PULLING UP ON HANDLE WHILE GIVING PRESSURE TO THE CHAIR BACK.
C BACK LOCKED POSITION–TO LOCK, FIND DESIRED POSITION THEN PUSH LEVER DOWNWARD.
D TENSION ADJUSTMENT KNOB–TURN KNOB TO ACHIEVE DESIRED TENSION.
E SEAT ANGLE ADJUSTMENT–TO ACHIEVE SEAT ANGLE OF 2° FORWARD, PRESS THE KNOB AT END OF LEVER WHILE TILTING HALFWAY BACK. BY PULLING OUT KNOB WHILE TILTING BACK YOU WILL ACHIEVE A SEAT ANGLE OF 3° BACKWARD.



5) MPD165 PNEUMATIC KNEE - TILT

A HEIGHT ADJUSTMENT
B FREE FLOATING
C MECHANISM IN LOCK POSITION
D TENSION ADJUSTER



FINISHES

FINISHES: A variety of finishes are available where applicable. Finishes are shown and specified in our catalog, website or ring sets.

CUSTOM FINISHES: We will match a custom finish as close as possible. A finish chip is necessary for us to provide this service. A $75 upcharge applies for matching stained finishes and $150 upcharge for special painted finishes. A $75 upcharge applies to Premium finishes as listed below.

FINISH #	COLOR	DESCRIPTION	
#2	Dark Walnut	Shown on maple	
#3	Fruitwood	Shown on maple

#13	Colorado Brown	Shown on maple	
#14	Vintage	Shown on maple	
#15	Rustic	Shown on maple	
#20	Pickled Pine	Shown on maple	
#21	Cognac	Shown on maple	
#22	Honey	Shown on maple	
#23	St. Croix	Shown on maple	
#27	Provence	Shown on maple	
#28	Aged Ebony	Shown on maple	
#34	Urban White	Shown on maple	
#38	Driftwood	Shown on maple	Premium
#39	Cape Cod	Shown on maple	Premium
#43	Linen	Shown on maple	
#45	Soft Bronze	Shown on maple	
#48	Limestone	Shown on maple	Premium
#49	Pecan	Shown on maple	Premium
#50	Slate	Shown on maple	Premium
#51	Native - Gloss Sheen	Shown on maple	Premium
#52	Native - Satin Sheen	Shown on maple	Premium
#53	Coffee	Shown on maple	
#54	Nutmeg	Shown on maple	
#55	Streak	Shown on ash	
#56	Heritage	Shown on maple	
#58	Honey	Shown on maple	

Above finishes which are standard on maple can be used on cherry designs, however, color will vary due to difference in wood species.

POWDERCOAT FINISHING

A large variety of finishes ranging from saturated solid colors to bronze and other precious metail options are available through the use of powder coating on Leathercraft's metal framed items. Please refer to the Cardinal Powder Coat Finish brochure or it can be downloaded at www.cardinalpaint.com. Contact customer service for a complete list of appropriate products.

Powder coat upcharges are applicable for metal frames that are not standard with a powdercoat finish. (frames that are standard with a chrome, stainless steel, brass, silver finish, etc.) Upcharges listed below.

Executive Chair Base:	$150	Ex. #51 base change from black to another color
Small Ottoman:	$210	Ex. 215-03 Mia Ottoman
Large Ottoman:	$255	Ex. 123 Carmelita Bench
Metal Chair:	$360	Ex. 214-02 Bamba Chair
Sofa Base:	$405	Ex. 1460 Cynthia Sofa

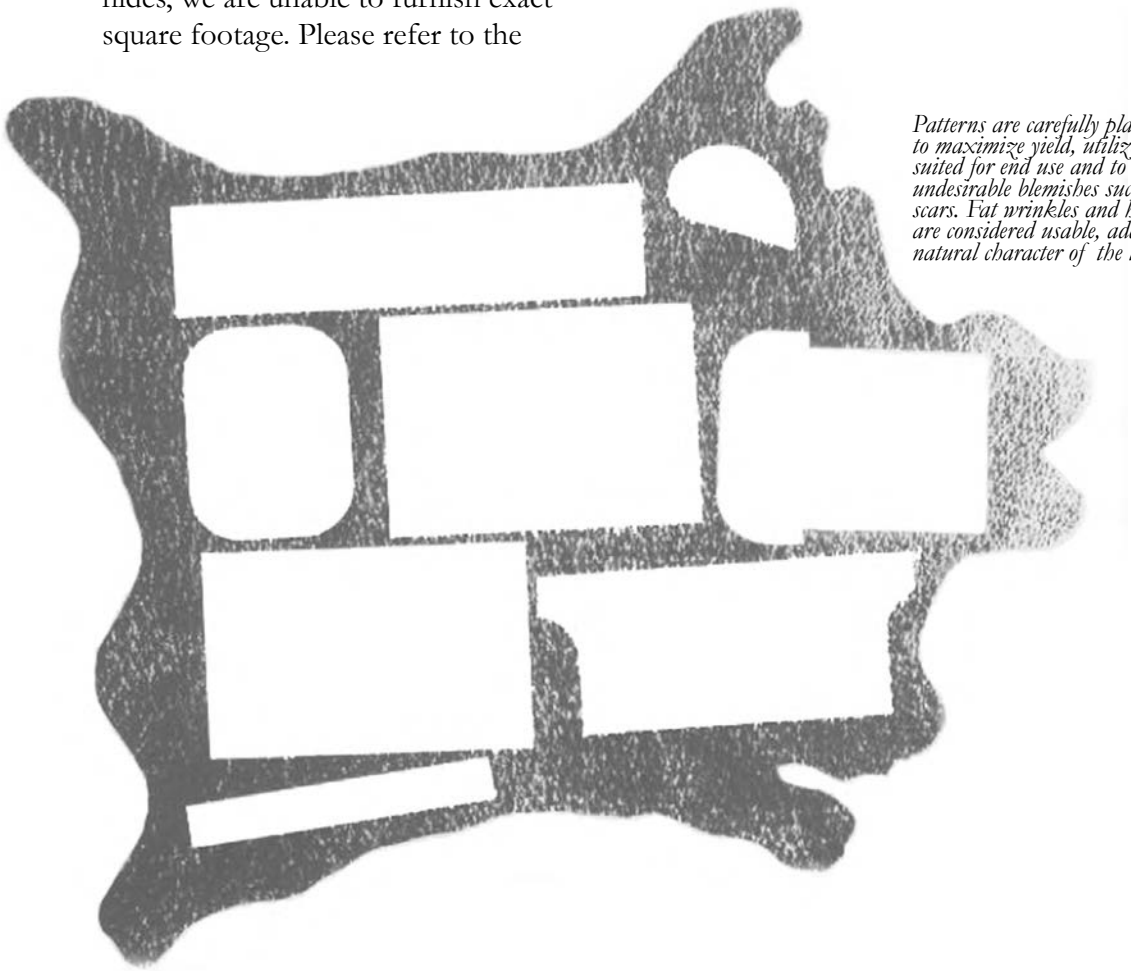
ORDERING HIDES FROM LEATHERCRAFT

When ordering hides from Leathercraft, please specify the pattern, color, group number and square footage required.

Our leathers are available in whole hide and half hide quantities. Whole hides average 45 to 55 square feet, and half hides average 22 to 28 square feet. Due to irregular sizes of hides, we are unable to furnish exact square footage. Please refer to the accompanying chart of fabric/leather conversion figures when estimating the square footage you require.

We will cut the hides to your exact specifications if you wish. The price for this service reflects additional cost of labor and increased waste.

Please refer to our current price list for pricing of leathers.



Patterns are carefully placed on hides to maximize yield, utilize areas best suited for end use and to avoid undesirable blemishes such as unhealed scars. Fat wrinkles and healed scars are considered usable, adding to the natural character of the leather.

Caring for Leather

Because leather is a natural product, it needs little or no care during normal usage. For spots and spills, blot excess liquid immediately with a clean absorbent cloth or sponge.

For hand antiqued and aniline plus leathers, use a damp sponge and suds from a mild soap. Rinse well with a clean sponge and pat dry with a towel. Clean the entire area where the spill occurred: for example, the entire seat cushion or entire arm. Damp areas should not be dried with electric hair dryers or artificial means. Most liquids will be initially repelled by the leather, but if left to stand over an extended period of time, they will be absorbed. That's why it's a good idea to mop up spills immediately.

Cleaning stains from pure aniline dyed leathers should be done with distilled water and suds from Neutrogena soap on a dampened sponge, feathering the moistened area with a clean cloth to remove the soap suds. Padding with a clean, dry white towel to remove excess moisture is then recommended. To best preserve the rich color and feel of your leather, avoid prolonged exposure to direct sunlight or heating units.

For sueded leathers use a brush to loosen the soil, then vacuum. Do not use water or liquid cleaning solutions as they may spot the leather.

The above cleaning instructions are generalizations. Many of today's leathers are unique and require special cleaning instructions. Refer to your swatchcards for specifics. For severe stains please call Leathercraft for guidance.

Do not use saddlesoap or any other cleaning or maintenance product for leather not endorsed by Leathercraft as these may cause a chemical breakdown of the finish.

LEATHER BY THE HIDE/FOOT

Leather can be purchased by the hide or by the foot. When ordering, please specify pattern, color, group number, and footage required. Due to irregular size of natural hides, we cannot furnish exact footages. Leather is sold in whole or half hide quantities. Whole hides average 45–55 square feet, half hides average 22–28 square feet. Call customer service for pattern averages. Add the following percentages to the actual footage required to cover waste – Group 1 – 10%, Group 2 – 20%, Groups 3-10 – 30%.

If leather is cut to customers exact specifications, use the prices listed in right column. These prices reflect added costs due to increased leather waste and labor.

PRICE/SQUARE FOOTAGE (Whole hide/half hide)		PRICE/SQUARE FOOTAGE/CUT TO SPECS (Cut to customers exact specifications)	
Group 1	$21.75	Group 1	$34.50
Group 2	$24.00	Group 2	$40.50
Group 3	$26.25	Group 3	$46.50

HOW TO ORDER LEATHER

Leather is sold on a square foot basis in whole or half hide quantities. Whole hides average 45-55 square feet, half hides average 22-28 square feet. Use the following figures when estimating quantities needed.

FABRIC 50″-54″	LEATHER	FABRIC 50″-54″	LEATHER
1 yard	17 sq ft.	6 yards	102 sq ft.
2 yards	34 sq ft.	7 yards	119 sq ft.
3 yards	51 sq ft.	8 yards	136 sq ft.
4 yards	68 sq ft.	9 yards	153 sq ft.
5 yards	85 sq ft.	10 yards	170 sq ft.

Restocking fee will be 20% and will apply to full hides only. Cut hides cannot be returned. For hand selected hides, add $75 per hide.

TRAPUNTO - LEEDS DESIGN $255

Cleaning Codes

1 - Mild Soap & Water

2 - Distilled water and suds from Neutrogena Soap on a dampened sponge; feathering the moistened area. Remove excess moisture by patting with a white, clean dry towel.

3 - Suede brush or dry powder stain remover, I.E. K2R
Or commercial foam cleaners.

COLOR FASTNESS INFORMATION

Color fastness of leather is graded by the Tanners Council on a scale from 1-6.
“6” is the least susceptible to fading and will withstand some direct sunlight. “1” is the most susceptible to fading and will fade rapidly in sunlight and brightly lighted areas.

SERVICEABILITY INFORMATION

HEAVY USAGE	MEDIUM USAGE	LIGHT USAGE TREAT AS FABRIC
Leather has been tested and is considered to be very durable and serviceable. - Suitable for heavy traffic areas and commercial applications. - Repels most food and beverage stains. - Cleanable with mild soap and water. - More durable than any other upholstery material.	This leather is considered durable under normal usage conditions. - Suitable for family rooms, recreational rooms and dens - Repels most food and beverage stains. - More durable and soil resistant than fabrics.	- Treat as you would fine fabrics - Repels most waterbased liquids - Suitable for living rooms and other areas where adult living is the norm. - Strong staining agents may cause discoloration. - May absorb hot liquids and oils.

LEATHER TYPE DESCRIPTIONS

Pure Aniline - Hides that have been drum dyed with transparent dyes throughout for 12-24 hours. These dyes enhance the subtle textures and natural variations of each hide.

Aniline Plus - Hides that are drum dyed, tumbled to soften the leather, then a layer of pigment is sprayed onto the surface to even out the color.

Waxed & Oiled Pure Aniline - Just like the pure aniline hides but a mixture of oils and waxes are infused into the hides under heat and pressure. This procedure highlights the markings and scars that are part of a purely natural product. These hides will create a “pull up” effect when applied to upholstery.

Waxed Pure Aniline - Waxes are applied to the surface of the hide to enhance the natural beauty of the leather.

Pure Aniline - Special Effect - Pure aniline hides that have been antiqued, buffed or enhanced to create a “special effect.”

Pure Aniline - HOH- Hair on hides that have been colored either solid or in a pattern such as animal prints or other patterns that simulate specific looks.

LEATHERCRAFT

The Definition of a Leather SWATCH

A Swatch is a representative sampling taken from one hide. A hide averages 50 square feet so it is only a small representation of the leather. Although this sample represents the color, texture and feel of the leather, chances are it will not be an exact match to the piece of furniture you end up receiving. Imagine if you were to take a small piece of wood flooring as a representation of the floor. This sample would in no way tell how large the wood grain is throughout the floor or if the stain applied to the floor would look the same as the sample. Because a swatch is such a small portion of the entire hide, many of the hide's unique characteristics are not depicted. This may come in the form of "nature's signatures", leather color variation, grain and texture variations, and dye lot deviation.

When choosing leather you must take into consideration that this is a natural material and may have "nature's signatures" incorporated into its natural beauty. These signatures may come in the form of healed scars, insect bites, neck and belly wrinkles. Just like your own skin, everyone has different complexions, scars and blemishes that create an individualized unique beauty.

Color variation occurs in top grain pure anilines and Nubuk leathers. These leathers are dyed for color only and due to the cell structure of the natural cow hide the dye is absorbed differently throughout the hide. Thus, creating darker or lighter areas, much like wood varies when stained. This explains why the arm of a sofa may have a different shade than the cushions or the back of the sofa. They were simply cut from different parts of the hide. Plus, a sofa will take 4 - 5 hides. This is NOT a defect; this is evidence that you are using natural top grain leather.

Leather Care

- Keep furniture dust and dirt free. Dusting and vacuuming with a soft brush. Deal with spills and soil gently and quickly (do not rub or scrub). Use a clean cloth or sponge. If necessary, use clean distilled water only and let dry naturally.

- Do not expose to intense heat sources or direct sunlight. Some color fading may occur if the leather is exposed to direct, intense light and heat.

- Do not use solvent or any product involving solvents to clean leather furniture.

YARDAGE CHART & COM

YARDAGE CHART FOR "RAILROADED" APPLICATION

Fabric Width	Plain Fabric	1″– 6″ Repeat	7″–14″ Repeat	15″–21″ Repeat	22″–27″ Repeat	Over 27″ Repeat
54″	0%	10%	20%	30%	35%	40%
50″	10%	20%	30%	40%	45%	50%
48″	15%	25%	35%	45%	50%	55%
45″	40%	35%	46%	55%	60%	65%
36″	50%	60%	70%	80%	85%	90%

Up the bolt application – add 10% additional yardage.
Drop repeats – add additional 10% additional yardage.
COM Trim – add additional 5% to COM price.

** Loosely woven fabrics may require backing.

If additional yardage is required to produce your order, customer will be required to furnish unless factory damages it.

COM – CUSTOMER'S OWN MATERIAL

As an integral part of our complete fabric program, we will be pleased to accept your COM specifications. Include on your purchase order the name of the mill, pattern and color. Additional, a small fabric swatch should accompany the order.

To assist you in calculating the necessary yardage requirements, please refer to our yardage chart. For exact yardage requirements call the factory at 800.627.1561 with all pertinent information (including both horizontal and vertical repeats, and fabric width). Periodically, where an unusually large repeat is specified, we may require an actual cutting large enough to show the repeat to assist us in providing you with the correct yardage requirements.

Where an unusually large vertical and horizontal repeat is specified on certain frames that require large cuts, additional yardage may be required.

When forwarding COM, it is necessary that your order number and the customer's name are specified on the material. Ship all COM to: Leathercraft Inc., 102 Section House Road, Conover, NC 28613.

The responsibility of selecting the proper fabric for an application lies solely with the customer. Leathercraft must abide by the customer's choice and cannot be responsible for misapplication. Nor will Leathercraft be responsible for the quality of any COM; i.e. weave imperfections, poor quality, dye lot variations, seam slippage, flaws, receiving shortages, serviceability, or overall wearability. We recommend that all COM fabrics are backed; particularly loosely woven goods.

Unless specifically instructed by the customer Leathercraft will, at its discretion, apply the fabric as best suits the frame design with regards to pattern, match patterns, face side, placement of seams, etc.

OASIS RECLINER PROGRAM

KEY FEATURES:

- 7 Arms, 6 Backs, 4 Legs/Bases Options to choose from ~ The choice is yours.
- Solid steel chassis construction holds the frame in place which prevents the frame from racking or twisting.
- Optional power and articulating headrest* available. Power switches are hidden inside of the seat cushion boxing.
- Optional chaise pad available to cover open gaps in footrest for ultimate leg comfort.
- The seat frame spring system is steel for added durability.
- All mechanical parts are made here in the USA and not imported.
- The outside backs are constructed to be tailored in one piece for better aesthetics and cleaner lines.
- Custom Made in the USA

*Articulating headrest is not available with Solid Back option.

Residential
Lifetime Limited Warranty

Leathercraft Inc. warrants that this piece of furniture is free from defects in tailoring, frame and spring construction

This warranty shall extend only to the original purchaser for the lifetime of that individual. During the warranty period, Leathercraft, Inc. will repair or replace, solely at its option, any defect as specified above that occurs under normal usage. This warranty does not apply to furniture intended for commercial use. Mechanical parts and cushions are not covered under the terms of this warranty, however, they may be covered by their individual manufacturer's warranty. Please check with Leathercraft for their specifics. This warranty does not apply to defects that result from negligence, misuse, accidents, improper cleaning, alteration or other accidental or willful changes. Consumer claims must initially be presented to the original authorized selling dealer. The retail seller will then contact Leathercraft for repair or replacement, if applicable. The cost of packing and shipping to and from the Leathercraft factory are not covered by this warranty.

Since manufacturers of upholstery leathers and fabrics do not guarantee their products for wearing quality, colorfastness, cover shrinkage, wrinkling, and stretching, these properties are not covered under this warranty.

To ensure the long life of this product it is the responsibility of the owner to protect the furniture from excessive exposure to strong lighting sources which will cause fading; excessive heat which may result in cracking, peeling, or color transfer to other materials. Cleaning techniques or leather care products other than authorized by Leathercraft should never be used.
